Intermediate

Proactive senior web developer with 3 years of self experience in front-end. Flair for creating elegant solutions in the least amount of time. A personable, communicative developer who specializes in React JS, Mongo DB, HTML5, CSS3 and Bootstrap 4. Interested in learning latest web technologies.

PROFESSIONAL SKILLS DEMONSTRATED

2019-07 -2020-05

Final Year Project
Meet&Eat

- Created my own unique social matchmaking application Meet&Eat in Kotlin(Android) language which allows user to make their own profiles, add their preferences and choose to meet one of the most compatible person out of all the matches in a nearby restaurant.

2019-05 -2019-08

Project Intern - *P2P Cluster in AFC Systems*
Center for Development of Advance Computing
A premier R&D organization of the Ministry of Electronics and Information Technology (MeitY) for carrying out R&D in IT, Electronics and associated areas.

- Project P2PCluster plays crucial role in managing AFC (Automatic Fare Collection) Systems. Wrote well designed, testable, efficient code by using best software development practices. Integrated data from various back-end services and databases. It helps facilitate message broadcasting from central server and prevent the station servers from overloading.

2018-06 -2018-09

Project Leader (Amity University)
1.Face Detection Application   2.ECommerce Application

- Designed, architected a Web Application with React, JavaScript, Node, SQL and latest web technologies. Built and maintained a working customer database, login-signup system, and picking and packing system with PostgreSQL, complete with responsive bootstrap and data validation.
- Designed, architected and wrote the front-end of our eCommerce application using ReactJS with 14,000 reusable components

2017-05 -2017-08

Personal Projects
(1.Pizza Delivery App, 2.Social Media Clones, 3.MERN CRUD, 4.Github Pages)

- Created my own projects to build a personal portfolio.
- Chip into open source projects. A little work on Github to rack up my experience which employers can validate with ease.
